

# Discussion and activities

## Post-election reflection: Understanding perspective

What role(s) did you play in the election?

Election official	Voter	Political party member	Undecided voter	Political candidate
<b>How did the role you played affect your participation?</b> <i>(e.g. Were you nervous? Did you know how you were going to vote? Were you able to listen and pay attention to all the candidates? What were your priorities?)</i>				
<b>Did the candidates' speeches match your own perspective on the issue?</b> <i>(Explain why you think different people have different views on issues)</i>				
<b>Did a candidate persuade you to change your perspective? What convinced you to vote how you did?</b>				
<b>Based on this activity, why do you think some people do not vote?</b>				
<b>Based on this activity, do you feel ready to vote in the future? Why or why not?</b>				
<b>In addition to voting, what are some other actions elementary students could take to contribute to their community?</b>
