10. Additional Returning Officer Comments

- a) Did the e-poll books and tabulator help serve electors with disabilities more effectively? Please explain.

From what was observed in special ballot and advance polls, technology was very helpful during the process of voting itself. Marking the ballot was much easier due to increased size. This decreased the number of assistive devices being used or help with marking of ballots.

- b) Please describe any situation you observed where electors with disabilities used their mobile devices (e.g. phones, iPads and tablets) as an assistive device during the voting process. Were there any issues or concerns?

None.

- c) Please describe other measures that you took to provide accessibility for electors with disabilities in your electoral district.

We were proactive in finding staff that spoke specific a specific language and placing them in residential homes that only spoke those languages.
